FEW ON THE GROUND

Senators and Representatives Slow
In Arriving at the Capital

GOSSIP AS TO LEGISLATION.

Members of Both Houses Not Talking
Much About Cuba—Currency Legisla-
tion, It Is Believed, Will Be Blocked
In the Senate—Day Offered and De-
clined the Attorney Generalship.WASHINGTON, Dec. 1.—Members of
congress are unusually slow in putting
in their appearance here for the regular
session which convenes next Monday.
Up to this time there have been scarcely
more than half a dozen arrivals each
day. From now on, however, it is ex-
pected that the rush will begin and that
a very full attendance will be in their
places on opening day. Few of the
leaders of either house are here yet.
This is especially true of the house of
representatives. Neither Speaker Reed
nor Mr. Dingley, the floor leader of the
majority, will reach Washington until
Saturday or Sunday.With the exception of pronounced
and radical pro and anti-cuban con-
gressmen the members of both houses,
as a rule, seem to be holding their
judgments in abeyance until they ascer-
tain from official sources exactly what
the situation is as to Cuba.In the matter of the currency it seems
already established that the Democrats
and their free silver allies will oppose
stubbornly anything the majority is
likely to propose and the fact that the
opposition in the senate seems insur-
mountable inclines many of the Repub-
lican members of the house to the opinion
that it would be wisdom not to at-
tempt any legislation whatever.Mr. Hepburn, of Iowa is one of these.
He thinks the futility of passing a mea-
sure in the senate makes it inexpedient
for the house to attempt to put through
a measure and besides he doubts the
propriety of the Republicans of the
house attempting to make a Republican
policy on a subject upon which the Re-
publican platform does not speak to the
point. He says if the president should,
as reported, recommend any scheme for
the retirement of the greenbacks, it
would be beyond the Republican plat-
form and every Republican would be
free to support or oppose it as his judg-
ment indicated.There is some talk of a Republican
caucus on this question, many of the
members believing that if a currency
measure is to be passed differences
could be most easily adjusted and con-
certed action secured in this way.Mr. Walker of Massachusetts, chair-
man of the committee on banking and
currency, some time ago sent a letter to
every member of his committee urging
the importance of currency legislation
and asking each member to be prepared
as soon after the opening of the session
as possible to work to the end that some
measure may be submitted to the house
for action.Mr. Hepburn, who is chairman of the
committee on interstate and foreign
commerce, says he has received many
letters during the recess, particularly
from mercantile bodies, urging action
on the antiscaling and pooling bills
and he expects both these questions to
receive early attention.

ATTORNEY GENERALSHIP.

Judge Days Says He Was Offered an I De-
clined the Position.WASHINGTON, Dec. 1.—When asked
whether there was any truth in the of-
ten printed reports that he had been
tendered the attorney generalship, As-
sistant Secretary Day of the state de-
partment, said: "The president some-
time ago kind enough to tender to me
the position of attorney general in the
event of a vacancy in that office, which,
after consideration, I have been re-
luctantly compelled to decline for
reasons entirely personal." There is ev-
ery reason to believe that Judge Day
will continue work in his present po-
sition in the state department.

Loving Will Be Repremended.

WASHINGTON, Dec. 1.—Secretary Al-
ger states that he has finally decided to
approve the sentence of the court in Cap-
tain Loving's case, which is that he be
reprimanded, although it may be some
days before the papers reach him, hav-
ing first to go to the judge advocate
general of the war department and
then to General Miles for their indorse-
ment before they will be in order for his
action.

Chicago Lakefront.

WASHINGTON, Dec. 1.—The Chicago
lakefront case was argued in the office
of the secretary of the interior today.
The case involves immensely valuable
lands of considerable extent in the heart
of the city of Chicago. The case was
decided once in favor of the script locat-
ers, but the decision was set aside.

WANTED TO SEE THE BABY.

Nicaraguan Sees a Missionary's Wife to

New York, Dec. 1.—Horatio C. Jones,
a missionary who arrived here yester-
day on the Atlas liner Alene from Port
Limón, says that his wife was scared to
death by the intrusion of a native, anx-
ious to see the new baby, into her bed-
room at San Carlos, Nicaragua. The
native meant no harm, but Mrs. Jones
was so frightened that she died from the
shock.

Whisky Assessed.

FRANKFORT, Ky., Dec. 1.—The state
board of valuation has assessed the
value of whisky in bond at \$3 per bar-
rel, the same rate as last year, and own-
ers will have to pay the county, city and
state taxes on their whisky as this valua-

CAPTAIN ALFRED DREYFUS.

French military officials have recently
been published by Figaro, has written
to that journal upbraiding it for laying
bare the "recesses and human weak-
nesses" of her husband's private life,
"regardless of the fact that it may break
a wife's and a mother's heart."The countess concludes her letter with
the statement: "All this is my concern
alone; but, confident that my husband's
honor will emerge intact, I forgive and
forget all."

DRANK WOOD ALCOHOL.

Seven Men Dead and Seventeen More
Not Expected to Live.MAPLESVILLE, Ala., Dec. 1.—Seven
men are dead and 17 more are not ex-
pected to live from the result of drink-
ing a mixture of wood alcohol and cheap
whisky.The liquor was bought in Selma, Ala.,
by Bill Anderson and another farmer
and brought here by them and retailed
to farmers and railroad laborers. A
great number of farmers and railroad
hands purchased some of the mixture
and immediately after drinking the
concoction were taken violently ill. No
physician was at hand and many of
them died before attention could be
given them. The alcohol was labelled
"for mixing paint only." The affair
has created a great sensation. Ander-
son and his partner are among the dead.

STARTLING STATEMENT.

One Out of Every Seven Deaths In New
York Caused by Consumption.NEW YORK, Dec. 1.—Dr. Biggs, of the
board of health, made some startling
statements before the board of estimates
while that body was yesterday consider-
ing the city budget for 1898. The board
of estimates was asked to approve a
grant of \$60,000 for the care of tuber-
culosis in a special hospital. Dr. Biggs,
speaking for the board of health in sup-
port of the appropriation, declared that
one out of every seven persons who die
in this city are victims of tubercular
consumption. Dr. Biggs further stated
that among the working classes the per-
centage of deaths due to this disease
was one-quarter.

FIFTEEN LOCOMOTIVES.

Japanese Government Gives a New Jer-
sey Firm an Order.NEW YORK, Dec. 1.—The government
of Japan has sent an order to locomotive
builders in Jersey City for 15 locomot-
ives for use on heavy trains. Work on
the locomotives will be begun at once.

Arrested by a Pension Examiner.

CLEVELAND, Dec. 1.—A woman giv-
ing her name as Frances Davis and
claiming to be a former army nurse,
was arrested here by a special pension
examiner on suspicion of being Annie
May, who was indicted several months
ago for impersonating a pension agent.
One of the victims of Annie May was
asked to identify the prisoner, but failed
to do so. Mrs. Davis was therefore re-
leased.

Wants Damages.

SEATTLE, Wash., Dec. 1.—Donald
Morrison has begun suit against the
North American Transportation and
Trading company for the recovery of
\$18,000 damages suffered by reason of
the company's failure to transport him-
self and several associates to Dawson
City, by way of St. Michaels.

Peoria Internal Revenue Collections.

PEORIA, Ills., Dec. 1.—The internal
revenue collections for the month of
November in the Peoria district were
\$2,137,257. This is surpassed by but
one previous month in the history of
the office and that was in August, 1894
when the Wilson bill went into effect.CARTER'S

TERRIBLE PENALTIES

Fate of an Embezzler and That of
a Murderer.

EX-AUDITOR MOORE SENTENCED

Jury Brings In a Verdict of Murder In
the First Degree and Sends Martin
Thorn to the Chair of Death In New
York For the Killing of William Gul-
densappe.LINCOLN, Neb., Dec. 1.—Ex-State
Auditor Eugene Moore, found guilty of
the embezzlement of \$23,000, state funds,
was yesterday sentenced to eight years
in the penitentiary. The sentence was
a surprise and a crushing blow to the
prisoner, who had expected but nominal
punishment, and the scene in the court-
room was as affecting as it was drama-
tic. Moore, with his wife standing by
his side, pleaded with the court for
mercy, making a long and somewhat
rambling statement. At its conclusion
he sank in his chair and sobbing bitter-
ly, his wife trying vainly to comfort
him.Judge Cornish, visibly affected, spoke
slowly of the crime committed and the
entire absence of extenuating circum-
stances. He said he believed no less than
10 years in the penitentiary would sat-
isfy outraged justice.As he passed Mrs. Moore threw her
arms about her husband's neck and
shouted: "Oh, please judge, have mercy
on him, have mercy!"Judge Cornish then said: "On ac-
count of your devoted wife and your
loving children, I will reduce the sen-
tence by two years. Therefore, the sen-
tence of the court is that you shall be
confined in the penitentiary for the term
of eight years at hard labor, pay the
costs of prosecution and be fined in the
sum of \$46,816.10."Moore was twice elected state auditor
and his family moved in exclusive so-
ciety.

THORN MUST DIE.

Jury Brings In a Verdict of Murder In
the First Degree.NEW YORK, Dec. 1.—Martin Thorn
was late yesterday convicted of murder
in the first degree in killing William
Guldensappe, his predecessor in the af-
fections of Mrs. Augusta Nack at Wood-
side, L. I., on June 25. At the request
of Thorn's counsel the passage of the
death sentence was deferred until next
Friday morning. Thorn heard the jury-
men polled on their verdict, but his face
never changed color during the trying
 ordeal. With lips firmly compressed
and jaws hard set, he faced the judge,
jury and courtroom full of spectators
with well-forged stoicism.About three weeks ago Thorn's first
trial on the charge of murder was be-
gun, but owing to the illness of a juror
it had to be abandoned after three days.
A second trial opened a week ago last
Monday and, counting out three days
on which the court did not sit, the trial
consumed only six days. The jury was
just three hours arriving at a verdict.
Thorn's lawyers moved for a new trial
on the ground that the verdict was not
in accordance with the weight of evi-
dence, but the motion was overruled.Just what will become of Mrs. Nack
has not been made known by the Queens
county authorities, but it is generally
thought that the state will accept a plea
from her which will not call for capital
punishment.

Thorn Said He Lied.

When Martin Thorn had been led
back to his cell after the conviction he
admitted that the verdict was just and
that he and not Mrs. Nack killed Gul-
densappe. This acknowledgment of
guilt took place in the jail while Thorn's
cell was being prepared for him. He
said:I am glad it is over and the verdict
given. I am convicted and I am contented.
It was I who killed Guldensappe and I
lie when telling the story as I did, but I
lie to clear myself. It is no use carrying
it any further. I am guilty and am con-
victed. It is what I expected and what I
suppose people think I deserve, and per-
haps I do.

POSTMASTER MISSING.

Willard Gillham of Upper Alton Mys-
teriously Disappears.UPPER ALTON, Ills., Dec. 1.—Willard
L. Gillham, son of the late Senator D.
B. Gillham, is missing, and much anx-
iety is felt by his family regarding his
whereabouts and safety. Mr. Gillham
is an attorney and is also postmaster at
this place. On Nov. 18 Mr. Gillham
started for Edwardsville, presumably to
transact some legal business. He left
home very early and took the train for
the place named. It is known that he
got to Mitchell, the station where Ed-
wardsville passengers transfer, but here
all trace of him is lost. His family is at
a loss to account for his absence.

MERRY'S MOTIVE.

Murdered His Wife to Get \$7.78 Which
She Had.CHICAGO, Dec. 1.—The police have re-
ceived their first information regarding
the cause of the murder of Mrs. Merry
by her husband, Peddler Chris Merry.
Nicholas Schwarz, a peddler, who has
been employed by Merry for three years,
has told them that on the day preceding
the murder he made \$7.78 for Merry by
peddling, and it was to get this from
his wife, after she had refused to sur-
render it, that Merry strangled her to
death.

Lou Bramble Sold For \$9,000.

LEXINGTON, Ky., Dec. 1.—At the
Woodward & Lothrop sale of thorough-
bred horses Lou Bramble was sold to
Captain S. S. Brown of Pittsburgh for
\$9,000, and Flora Louie was sold to
Thomas Hays of this city for \$3,000.

ABOUT PAUPERS.

Report Made to Charity Organization
Society New York.NEW YORK, Dec. 1.—A report that is
probably the only one of the kind made
in this country has been completed by
the committee on statistics of the char-
ity organization society.The committee is composed of Rich-
mond Mayo Smith and Franklin H. Sid-
dings of Columbia University and
Frederick W. Halls.It is a careful analysis of the records
of 500 families from the time they ap-
plied for aid in 1890 until Sept. 1, of this
year. Referring to repetitions of ap-
plications for relief the report says:
"There is a disclosure of chronic pau-
perism. This pauperism exists to a
large degree because of the incapacity
of men and women to support them-
selves. Their condition is due, investi-
gation shows, to a lack of moral devel-
opment."Of the persons who appealed for aid
the largest number were married men
and women. Widows with children
came next. Of the 500 applicants 170
were Irish and 132 were natives of the
United States. Many of the latter were
persons who had lived in this city less
than a year.The list includes 122 men of good
character and 231 women of good char-
acter. The remainder were professional
beggars, criminals and chronic paupers.

she is the mother of a child. It is the first time the cling-
ing care of her own baby's fingers. How many
thousand of women miss this greatest, womanliest
happiness, and live out dreary, loveless
lives because of ill health.Every woman should realize the
supreme importance of healthy vigor and
strength of the organs distinctly feminine.
Unless a woman is willing to be that least
envied of her sex, a childless woman, she
cannot afford to neglect this feature of her
health.The best known and most successful med-
icine for the cure of all diseases and weak-
nesses of the female reproductive organs is
Dr. Pierce's Favorite Prescription. Hundreds
of homes that for years remained
childless now ring with childish laughter as
a result of the "beneficial effects of the 'Fa-
vorite Prescription.'"It is the preparation
of an eminent and skillful specialist, Dr.
R. V. Pierce. For years it has been used
by Dr. Pierce in his daily practice in the
Invalids' Hotel and Surgical Institute, at
Buffalo, N. Y., the greatest institution of
the kind in the world. It has relieved thou-
sands of women from suffering and pain and
prepared thousands for the successful per-
formance of the duties of maternity.W. R. Malcolm, of Knobel, Clay County, Ar-
kansas, writes: "Since I last wrote you we
had a baby girl born to us. My wife took your
'Golden Medical Discovery' and also your 'Fa-
vorite Prescription' all during the expectant
period and until confinement, and she had no
trouble to mention. A stouter, heartier child
was never born. Our child will be one year of
age the 8th inst. and she has not been sick a
day. Has not had so much as the colic. It is a
fact, sir, and we have not had to be up with her
as we have twice at night since her birth. My
wife had not even a fever for the two or three
days after the child was born, although the
attending physician told us that such would be
the case. Our neighbors remarked to me that
they thought my wife the stoutest little woman
they ever knew. We think our good health due
to the use of your family medicines."Dr. Pierce's Pleasant Pellets cure consti-

ROCKVILLE TRAGEDY

Wealthy Farmer Shot and Instantly
Killed by a Boy.

WAS NOT GUILTY OF FORGERY.

Secretary of a Horse Thief Detective As-
sociation In Jail For Embezzlement.
Indiana Boy, Mourned as Dead, Is
Found to Be a Wealthy Mine Owner.
Split In Two by a Saw.ROCKVILLE, Ind., Dec. 1.—James T.
Sturgeon, a prominent farmer and stock
buyer, was shot and instantly killed
yesterday by Harry Porter, a boy 16
years old. The cause of the killing
was jealousy because of attentions paid
by the dead man to the boy's mother.
The family warned Sturgeon to keep
away. The boy met him in the sugar
orchard, some 200 yards from the house,
and shot with fatal effect. He then
came to Rockville and surrendered him-
self. Sturgeon leaves a wife and a large
family of children. Both families are
prominent.

ACCUSED OF EMBEZZLING.

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

Dr. Miles' Restorative Nervine is sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., ELKHART, IND.

Telephone No. 42.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

WEDNESDAY, DECEMBER 1, 1897.

GOVERNOR JONES, of Arkansas, issued a thanksgiving proclamation which is yet being applauded by the populist democrats.

Some of Mr. Bryan's enthusiastic admirers would like to accompany him on his proposed trip to Mexico, if he would only signify that he wanted company.

New York's first beet sugar factory has handled 15,000 tons of beets this year and made money for all concerned. This American industry will loom up within two or three years.

The farmers institute to be held here December 23 and 24, will doubtless bring out a large number of Jackson county farmers. The people will extend to them a hearty welcome and endeavor to make their stay with us pleasant.

POLITICAL BREVITIES.

Hamlin Smith, chairman of the republican county committee, has received official notice of the meeting of the state central committee as well as representative republicans from all parts of the state, at Indianapolis December 28. It will be an important meeting as the preliminary work of the approaching campaign will be discussed. The indications are that the meeting will be largely attended.

Sugar Beet Industry.

The raising of sugar beets is receiving much attention from the Indiana farmers. Every place where experiments have been made it has been highly satisfactory. More attention will be giving to this industry in another year. The subject will be discussed on the second day of the Jackson county farmers institute, commencing at 9 o'clock. This institute will be held in Seymour Dec. 23 and 24.

A CRUEL OPERATION.

THE PROCESS BY WHICH TORTOISE SHELL IS PROCURED.

Fires Set on the Living Turtle to Separate the Bony Layers of the House in Which He Lives—A Business That Struck an Observer as Heartless.

There are many articles of daily and hourly use constantly passing before our eyes and through our hands about the production of which we know comparatively little or nothing. An interesting example of this is tortoise shell, from which combs and hairpins are made, besides a multitude of trinkets for the dressing table, the desk and the pocket. Fierce cruades have been instituted in recent years against the slaughter of birds for the procurement of their plumage for hat trimmings, and yet I venture to say that the process of procuring tortoise shell is a cruelty to animal life which far exceeds that to which birds are subjected.

In the eighties I happened to be down in Bluefields, on that awful Mosquito coast, and at the invitation of one Manuel Latona, who was the owner and captain of a small schooner, went with him to the cay El Roncador for tortoise shell. This cay gets its name (which in English would be the Snorer) from the exceedingly angry surf, which can be heard for a long distance breaking over the reefs. This is the cay on which a couple of years back the historic old ship Kearsarge was wrecked and battered to pieces. El Roncador is nothing more or less than a typical coral island, such as is found throughout the southern seas, three-quarters of a mile long, perhaps, and not more than a quarter of a mile across its widest part. Surrounding the island is a reef, inside of which the water is smooth and rather shallow, and at the bottom of this shallow water there grows a peculiar kind of sea grass which is a dainty food for the turtle tribes. There is also found on the top of the water inside the reef a sort of small blubber fish, called in Spanish dedales, or thimble fish, which is perhaps the greatest delicacy of the entire turtle menu.

The turtle whose shell is valued in commerce is a small species known as the hawk bill. There are other varieties which come to El Roncador to spawn, but they are not molested. During the night the turtles crawl up on the shore to lay their eggs, each female depositing on an average about 70. To do this they dig holes in the sand about two feet deep and after laying the eggs cover them over so deftly that it is almost impossible for a novice to find them. These eggs are really delicious when roasted, but the turtle fishers are careful not to destroy those they do not take for food, so as to promote as much as possible the increase of this valuable sea reptile. At night the fishers conceal themselves along the shore as well as possible, and when the turtles come up out of the water on the beach they rush forth and turn them over on their backs with iron hooks, leaving them secure in this position until morning.

The tortoise shell of commerce is not, as is generally believed, the horny covering or shell proper of the turtle; it is the scales which cover the shield. These scales are 13 in number, 8 of them being flat and the other 5 somewhat curved. Four of those that are flat are quite large, sometimes being as much as 12 inches long and 7 inches broad, nearly transparent and beautifully variegated in color with red, yellow, white and dark brown clouds, which give the effects so fully brought out when the shell is properly polished. A turtle of average size will furnish about eight pounds of these laminae, or scales, each piece being from an eighth to a quarter of an inch in thickness.

It is the method by which these scales are loosened which is the repulsive part of the business. The turtles are not killed, as that would lead to their extermination in a very few years. After capturing them the fishers wait for daylight to complete the work. The turtles are turned over again in their natural position and fastened firmly to the ground by means of pegs. Then a bunch of dried leaves or sea grass is spread evenly over the back of the turtle and set afire. The heat is not great enough to injure the shell, merely causing it to separate the joints. A large blade, very similar in shape to a chemist's spatula, is then inserted horizontally between the laminae, which are gently pried from the back. Great care must be taken not to injure the shell by too much heat, and yet it is not forced off until it is fully prepared for separation by a sufficient amount of warmth.

The operation, as one may readily imagine, is the extreme of cruelty, and many turtles do not survive it. Most of them do live, however, and thrive, and in time grow a new covering, just as a man will grow a new finger nail in place of one he might lose. The peculiarity of the second growth of shell, though, is that instead of reproducing the original number of 13 segments it is restored in one solid piece.

To see the operation of taking the shell from the living turtle once is about all a man of northern breeding wants of it, and if the helpless reptiles had the power of voicing their sufferings under it their cries would tell of as heartless a business as man has yet engaged in.—New York Post.

BOOTH-TUCKER'S SCHEME.

Commander of the Salvation Army Secures Aid For His Colony.

NEW YORK, Dec. 1.—There was a great audience in Carnegie hall to hear Commander Booth-Tucker of the Salvation Army unfold his plan to colonize the unemployed. It is his intention to have his plan in operation within six weeks. The colony is to be settled in western Colorado and territory enough to accommodate several thousand persons has been obtained. Commander Booth-Tucker said:

"To carry out the plan upon the large scale which shall be worthy of our nation and worthy of the emergency which faces us will require considerable amount of capital. This we do not propose to ask for in the shape of gifts, but as loans bearing interest at 5 per cent and repayable in a period of 10 years. We propose to raise immediately a fund of \$100,000 with which we shall be able to place 200 families of 1,000 souls on 2,000 acres of good irrigated land. We shall form a co-operative loan association on the German model, thus enabling the colonists to have some money in hand for the purchase of stock."

When the blanks had been circulated among the audience it was announced that Elizabeth Livingston had given \$1,000, a "secret subscriber" \$5,000, ex-Governor Flower \$500 and John E. Milholland \$1,000. Smaller subscriptions brought the amount up to \$30,000.

The Gateway to the South to Be Reopened Next Sunday.

LOUISVILLE, Dec. 1.—Next Sunday the Louisville gateway to the south, which has been practically closed against northern travel for the past 10 years, will be reopened. On that day the Louisville and Nashville railroad will put on a fast daily train to leave this city at 8:10 p. m. The train will be a solid vestibule and will connect in the union depot with trains from Chicago, St. Louis, Cincinnati and other northern cities. The time from Chicago to Jacksonville, Fla., will be 33 hours, which breaks the record.

SHE WAS INNOCENT.

Woman Serves Years For a Crime of Which She Was Guiltless.

FRANKFORT, Ky., Dec. 1.—The governor has pardoned Catherine McQuinn, who is serving a life term on the charge of being an accomplice of "Bad" Tom Smith in the murder of Dr. Rader in Breathitt county several years ago. All the jurors and other officers of the trial court signed a statement to the effect that Mrs. McQuinn was shown to be innocent by proof secured after the trial. Smith first told she was his accomplice, but afterward told his attorney that she was innocent.

HELD UP IN A DREAM.

Legislators of Georgia Pay Tribute to Knights of the Road.

ATLANTA, Dec. 1.—A committee from the house of representatives, composed of some of the most prominent politicians in the state, was yesterday held up in a freight car in the Okefenokee swamp and forced to give up a considerable sum of money. They had been inspecting a convict camp in the swamp. On the return trip, when in the midst of the swamp two men stopped the train and demanded \$1.50 fare from each of the members, claiming to be officials of the road. Under protest the amount was paid, but the train was stopped again and the bogus conductors returned and demanded more money. He was given all that there was in the party and the journey was completed.

IS IT A MATTER OF TIME?

What Was Considered Modest and Proper a Hundred Years Ago.

Modesty, as has often been said, may almost be considered a matter of time and place. In the time of George III of England, though the drapery was of the scantiest, it was not considered delicate or refined to uncover the forehead. Some young ladies who had been abroad were considered bold looking because they wore their hair *la mode* fashion. Ladies not in the premiere jeunesse were generally wore wigs. The princesses had their heads shaved and wore wigs ready dressed and decorated for the evening to save time for the toilet. Widows almost always shaved their heads. Lady Murray says her mother's beautiful hair was cut off for her deep mourning, and she never wore anything but a wig in after years.

At Windsor castle in those days luncheon was not, as it is now, a general meal. Each lady had a chicken, a plate of fruit and a bottle of king's cup (the peel of a lemon put to soak for some hours in cold water and then sweetened with sugar) brought to her room every day. Those were the days for servants' perquisites. On all the highest saints' days a tinsel cross of divers colors was placed on the tables of the ladies or sent to their residences, and a guinea was understood to be due in return. A bottle of wine every two days and unnecessary wax candles were the perquisites of the ladies' maids.

Candles were extinguished as soon as lit, to be carried off by servants. Pages were seen marching out before the royal family with a bottle of wine sticking out of each pocket, and the state page called regularly upon each person who attended the drawing rooms, with his book, to receive the accustomed gratuity. The ladies in waiting then wore the Windsor uniform, which is at present confined to the gentlemen attendants. It was a blue cloth habit, not long, as worn for riding, but the length of a gown, with buttons having a star surrounded with the motto, "Honi soit qui mal y pense" and a scarlet collar.—New York Herald.

Leather and Kerosene.

There is one use of kerosene which is seldom mentioned. It often happens that when a heavy shoe or boot has been wet it hardens and draws so that it hurts the foot. If the shoe is put on and the leather thoroughly wet with kerosene, the stiffness will disappear and the leather become pliable, adapting itself to the foot. If oiled while wet, the leather retains its softness a longer time. The kerosene does not injure the leather at all.

The county commissions have been out this week inspecting gravel road, stone and bridge work being done. The Kurtz and Maumee road, six and a half miles, has been completed and received. The Clearspring and Norman Station road, five miles has also been completed and received. The contractors, who are building the Norman Station and Leesville road, have reported that they would have their contract completed this week and ready for acceptance. Some reports from out that way, however, will prompt them to inspect their work very closely.

About 38 miles of gravel road will have been built in Owen and Saltcreek township this year if all contracts are completed.

There will be a petition filed before the commissioners at their next regular session for the construction of several miles of gravel road in Hamilton township. The sentiment out there seems to be generally favorable to the building of the road.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bostonian says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

PERSONAL

Miss Nellie Greer left last evening for Eastern Ohio to be gone several months. Mrs. Forest W. Sweeney, of Pinkneyville, Ill., came here last evening to visit relatives and friends.

T. W. Egan and family, of Washington, and sister, Marguerite Keplinger, moved last night to Indianapolis, to reside in future.

Mrs. Jane Lawhead, of Columbus, after a nice visit with her sons, Aaron, and Ellsworth Loyd and families, returned home last evening.

Mrs. Samuel Smallwood, of Goss Mill, and daughter, Mrs. William White, of near Freetown, went last evening to Columbus to visit Mrs. John Newcomb, daughter of the former, who is very ill with scrofula.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen well bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

Seek a Home.

On December 7th and 21st, 1897, the Iowa Central Railway, the only vestibuled train line between St. Paul, Minneapolis and St. Louis, Kansas City and Peoria, making close connections in union depots at all important junction points, will sell home-seekers' tickets to all points in the north and northwest, at one fare plus two dollars for the round trip. The best service and unequalled accommodations. For particulars apply to local agent, or write for full information to

Two Pointed Questions Answered.
What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the R. P. Kilmer and send your address to Dr. Kilmer & Co., Binghamton, N. Y. T. P. proprietors of this paper guarantee entinence of this offer.

A merchant in a neighboring city dipped a lump of coal in gold sizing and having labeled it "Nugget from Klondike—value \$9,000," placed it in his show window and was greatly pleased with his ingenuity. The next morning he found the window smashed and the lump of gilded coal gone. It cost him \$90 to replace the plate glass. He thinks now that a newspaper ad. would have done him more good and not have cost him so much.

Pains in the chest when a person has a cold indicate a tendency toward pneumonia. A piece of flannel dampened with Chamberlain's Pain Balm and on to the chest over the seat of pain will promptly relieve the pain and prevent the threatened attack of pneumonia. An Appeal For the Poor.

As truant officer of district No. 2 composed of Crothersville, Redding, Hamilton, Jackson, Vernon, Washington and Grassyfork townships, I find many families whose clothing is not sufficient to afford them reasonable protection against the weather that is sure to come this winter; and while the law provides for "necessary temporary aid" to all children needing the same, between the ages of 8 and 14 years, that they may "attend school regularly for 12 weeks," can we not do something for those other than those from 8 to 14 years who need both temporary and permanent aid that they may earn and enjoy the scanty living with which they seem to be content. Therefore, let us look into the attic, nooks and corners of our homes and see if there is not some clothing, underwear, boots, shoes, hats, caps, gloves, mittens, wraps, hoods or overcoats, all of any size, style or color, in good repair or not. Then if you will send me word I will call for them and place them in homes where they will be thankfully received.

The following good people donated money to fix up the church for the winter and to have the lamps repaired: Wm. Brooker, J. B. Thompson, R. D. Hays, Jason Bottorff, Preston Van Cleave, L. C. Baughman, Frank Stockover and Taylor Pruden.

Married, at the residence of the bride's parents, Mr. Jason Bottorff and Miss Mary Brooker, the oldest daughter of Mr. and Mrs. Wm. Brooker, Rev. J. L. Shroyer officiating. They will immediately go to housekeeping in a house built for them nearly a year ago on the bottom farm of Jake Bottorff. They have the best wishes of the scribe.

Don't bolt your food, it irritates your stomach. Choose digestible food and chew it. Indigestion is a dangerous sickness. Proper care prevents it. Shaker's Digestive Cordial cures it. That is the long and short of indigestion. Now, the question is: Have you got indigestion? Yes, if you have pain or discomfort after eating, headache, dizziness, nausea, offensive breath, heartburn, languor, weakness, fever, jaundice, flatulence, loss of appetite, irritability, constipation etc. Yes, you have indigestion. To cure it, take Shaker's Digestive Cordial. The medicinal herbs and plants of which Shaker's Digestive Cordial is composed, help to digest the food in your stomach, help to strengthen your stomach. When your stomach is strong, care will keep it so. Shaker's Digestive Cordial is for sale by druggists, price 10 cents to \$1.00 per bottle.

MRS. E. R. WELLS.

John R. McLean's Great Newspaper.

Without a single exception, there is no doubt no greater or more popular newspaper in the United States than the Chicago Enquirer; a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with real and enterprise in minor matters as well as those of greater magnitude.

WANTED TO SEE THE BABY.

Nicaraguan Seizes a Missionary's Wife to
Death.

NEW YORK, Dec. 1.—Horatio C. Jones, a
missionary who arrived here yesterday
on the Atlas liner Alene from Port
Limon, says that his wife was scared to
death by the intrusion of a native, anxious
to see the new baby, into her bed-
room at San Carlos, Nicaragua. The
native meant no harm, but Mrs. Jones
was so frightened that she died from the
shock.

Whisky Assessed.

ers will have to pay the county, city and
state taxes on their whisky at this valua-
tion.

Figaro Upbraided.

Countess Esterhazy Writes That Journal
Regarding Its Attack on the Count.

PARIS, Dec. 1.—Countess Esterhazy,
wife of Countess Walsin Esterhazy, who
is charged with having written the letter
which led to the imprisonment on the
Isle of the Devil of Former Captain
Alfred Dreyfus on the charge of betray-
ing French military secrets to a foreign
power, and copies of whose alleged let-
ters reflecting upon the honor of high

French military officials have recently

been published by Figaro, has written
to that journal upbraiding it for laying
bare the "recesses and human weak-
nesses" of her husband's private life,
"regardless of the fact that it may break
a wife's and a mother's heart."

The countess concludes her letter with
the statement: "All this is my concern
alone; but, confident that my husband's
honor will emerge intact, I forgive and
forget all."

DRANK WOOD ALCOHOL

Seven Men Dead and Seventeen More
Not Expected to Live.

MAPLESVILLE, Ala., Dec. 1.—Seven
men are dead and 17 more are not ex-
pected to live from the result of drink-
ing a mixture of wood alcohol and cheap
whisky.

The liquor was bought in Selma, Ala.,
by Bill Anderson and another farmer
and brought here by them and retailed
to farmers and railroad laborers. A
great number of farmers and railroad
hands purchased some of the mixture
and immediately after drinking the
concoction were taken violently ill. No
physician was at hand and many of
them died before attention could be
given them. The alcohol was labelled
"for mixing paint only." The affair
has created a great sensation. Ander-
son and his partner are among the dead.

STARTLING STATEMENT.

One Out of Every Seven Deaths in New
York Caused by Consumption.

NEW YORK, Dec. 1.—Dr. Biggs, of the
board of health, made some startling
statements before the board of estimates
while that body was yesterday consider-
ing the city budget for 1898. The board

on the locomotives will be begun at once.

Arrested by a Pension Examiner.

CLEVELAND, Dec. 1.—A woman giv-
ing her name as Frances Davis and
claiming to be a former army nurse,
was arrested here by a pension exam-
iner on suspicion of being Annie
May, who was indicted several months
ago for impersonating a pension agent.
One of the victims of Annie May was
asked to identify the prisoner, but failed
to do so. Mrs. Davis was therefore re-
leased.

Peoria Internal Revenue Collections.

PEORIA, Ill., Dec. 1.—The internal
revenue collections for the month of
November in the Peoria district were
\$2,137,257. This is surpassed by but
one previous month in the history of
the office and that was in August, 1894
when the Wilson bill went into effect.

Chicago Lakefront.

WASHINGTON, Dec. 1.—The Chicago
lakefront case was argued in the office
of the secretary of the interior today.
The case involves immensely valuable
lands of considerable extent in the heart
of the city of Chicago. The case was
decided once in favor of the script locat-
ers, but the decision was set aside.

Nicaraguan Seizes a Missionary's Wife to
Death.

NEW YORK, Dec. 1.—Horatio C. Jones, a
missionary who arrived here yesterday
on the Atlas liner Alene from Port
Limon, says that his wife was scared to
death by the intrusion of a native, anxious
to see the new baby, into her bed-
room at San Carlos, Nicaragua. The
native meant no harm, but Mrs. Jones
was so frightened that she died from the
shock.

DRANK WOOD ALCOHOL

Seven Men Dead and Seventeen More
Not Expected to Live.

MAPLESVILLE, Ala., Dec. 1.—Seven
men are dead and 17 more are not ex-
pected to live from the result of drink-
ing a mixture of wood alcohol and cheap
whisky.

The liquor was bought in Selma, Ala.,
by Bill Anderson and another farmer
and brought here by them and retailed
to farmers and railroad laborers. A
great number of farmers and railroad
hands purchased some of the mixture
and immediately after drinking the
concoction were taken violently ill. No
physician was at hand and many of
them died before attention could be
given them. The alcohol was labelled
"for mixing paint only." The affair
has created a great sensation. Ander-

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

Dr. Miles' Restorative Nervine and Liver Pills are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

WEDNESDAY, DECEMBER 1, 1897.

GOVERNOR JONES, of Arkansas, issued a thanksgiving proclamation which is yet being applauded by the populist democrats.

Some of Mr. Bryan's enthusiastic admirers would like to accompany him on his proposed trip to Mexico, if he would only signify that he wanted company.

New York's first beet sugar factory has handled 15,000 tons of beets this year and made money for all concerned. This American industry will loom up within two or three years.

The farmers institute to be held here December 23 and 24, will doubtless bring out a large number of Jackson county farmers. The people will extend to them a hearty welcome and endeavor to make their stay with us pleasant.

POLITICAL BREVITIES.

Hamlin Smith, chairman of the republican county committee, has received official notice of the meeting of the state central committee as well as representative republicans from all parts of the state, at Indianapolis December 28. It will be an important meeting as the preliminary work of the approaching campaign will be discussed. The indications are that the meeting will be largely attended.

Sugar Beet Industry.

The raising of sugar beets is receiving much attention from the Indiana farmers. Every place where experiments have been made it has been highly satisfactory. More attention will be giving to this industry in another year. The subject will be discussed on the second day of the Jackson county farmers institute, commencing at 9 o'clock. This institute will be held in Seymour Dec. 23 and 24.

A CRUEL OPERATION.

THE PROCESS BY WHICH TORTOISE SHELL IS PROCURED.

Fires Set on the Living Turtle to Separate the Bony Layers of the House in Which He Lives — A Business That Struck an Observer as Heartless.

There are many articles of daily and hourly use constantly passing before our eyes and through our hands about the production of which we know comparatively little or nothing. An interesting example of this is tortoise shell, from which combs and hairpins are made, besides a multitude of trinkets for the dressing table, the desk and the pocket. Ferocious cruades have been instituted in recent years against the slaughter of birds for the procurement of their plumage for hat trimmings, and yet I venture to say that the process of procuring tortoise shell is a cruelty to animal life which far exceeds that to which birds are subjected.

In the eighties I happened to be down in Bluefields, on that awful Mosquito coast, and at the invitation of one Manuel Latona, who was the owner and captain of a small schooner, went with him to the cay El Roncador for tortoise shell. This cay gets its name (which in English would be the Snorer) from the exceedingly angry surf, which can be heard for a long distance breaking over the reefs. This is the cay on which a couple of years back the historic old ship Kearsarge was wrecked and battered to pieces. El Roncador is nothing more or less than a typical coral island, such as is found throughout the southern seas, three-quarters of a mile long, perhaps, and not more than a quarter of a mile across its widest part. Surrounding the island is a reef, inside of which the water is smooth and rather shallow, and at the bottom of this shallow water there grows a peculiar kind of sea grass which is a dainty food for the turtle tribes. There is also found on the top of the water inside the reef a sort of small blubber fish, called in Spanish dedales, or thimble fish, which is perhaps the greatest delicacy of the entire turtle menu.

The turtle whose shell is valued in commerce is a small species known as the hawk bill. There are other varieties which come to El Roncador to spawn, but they are not molested. During the night the turtles crawl up on the shore to lay their eggs, each female depositing on an average about 70. To do this they dig holes in the sand about two feet deep and after laying the eggs cover them over so deftly that it is almost impossible for a novice to find them. These eggs are really delicious when roasted, but the turtle fishers are careful not to destroy them as they do not take for food, so as to promote as much as possible the increase of this valuable sea reptile. At night the fishers conceal themselves along the shore as well as possible, and when the turtles come up out of the water on the beach they rush forth and turn them over on their backs with iron hooks, leaving them secure in this position until morning.

The tortoise shell of commerce is not, as is generally believed, the horny covering or shell proper of the turtle; it is the scales which cover the shield. These scales are 13 in number, 8 of them being flat and the other 5 somewhat curved. Four of those that are flat are quite large, sometimes being as much as 12 inches long and 7 inches broad, nearly transparent and beautifully variegated in color with red, yellow, white and dark brown clouds, which give the effects so fully brought out when the shell is properly polished. A turtle of average size will furnish about eight pounds of these laminae, or scales, each piece being from an eighth to a quarter of an inch in thickness.

It is the method by which these scales are loosened which is the repulsive part of the business. The turtles are not killed, as that would lead to their extermination in a very few years. After capturing them the fishers wait for daylight to complete the work. The turtles are turned over again in their natural position and fastened firmly to the ground by means of pegs. Then a bunch of dried leaves or sea grass is spread evenly over the back of the turtle and set afire. The heat is not great enough to injure the shell, merely causing it to separate the joints. A large blade, very similar in shape to a chemist's spatula, is then inserted horizontally between the laminae, which are gently pried from the back. Great care must be taken not to injure the shell by too much heat, and yet it is not forced off until it is fully prepared for separation by a sufficient amount of warmth.

The operation, as one may readily imagine, is the extreme of cruelty, and many turtles do not survive it. Most of them do live, however, and thrive, and in time grow a new covering, just as a man will grow a new finger nail in place of one he might lose. The peculiarity of the second growth of shell, though, is that instead of reproducing the original number of 13 segments it is restored in one solid piece.

To see the operation of taking the shell from the living turtle once is about all a man of northern breeding wants of it, and if the helpless reptiles had the power of voicing their sufferings under it their cries would tell of as heartless a business as man has yet engaged in.—New York Post.

BOOTH-TUCKER'S SCHEME.

Commander of the Salvation Army Seeks Aid For His Colony.

NEW YORK, Dec. 1.—There was a great audience in Carnegie hall to hear Commander Booth-Tucker of the Salvation Army unfold his plan to colonize the unemployed. It is his intention to have his plan in operation within six weeks. The colony is to be settled in western Colorado and territory enough to accommodate several thousand persons has been obtained. Commander Booth-Tucker said:

"To carry out the plan upon the large scale which shall be worthy of our nation and worthy of the emergency which faces us will require considerable amount of capital. This we do not propose to ask for in the shape of gifts, but as loans bearing interest at 5 per cent and repayable in a period of 10 years. We propose to raise immediately a fund of \$100,000 with which we shall be able to place 200 families of 1,000 souls on 2,000 acres of good irrigated land. We shall form a co-operative loan association on the German model, thus enabling the colonists to have some money in hand for the purchase of stock."

When the blanks had been circulated among the audience it was announced that Elizabeth Livingston had given \$1,000, a "secret subscriber" \$5,000, ex-Governor Flower \$500 and John E. Milholland \$1,000. Smaller subscriptions brought the amount up to \$30,000.

IN HONOR OF DR. WHITMAN.

Fiftieth Anniversary of the Massacre of the Missionary Celebrated.

WALLA WALLA, Wash., Dec. 1.—The memorial exercises were held yesterday in honor of the 50th anniversary of the massacre of Dr. Whitman and his associates at Waiilatpu mission. Mrs. Katharine Pringle, a survivor of the massacre and an adopted daughter of Mr. and Mrs. Whitman, made a short address.

The Gateway to the South to Be Reopened Next Sunday.

LOUISVILLE, Dec. 1.—Next Sunday the Louisville gateway to the south, which has been practically closed against northern travel for the past 10 years, will be reopened. On that day the Louisville and Nashville railroad will put on a fast daily train to leave this city at 8:10 p. m. The train will be a solid vestibule and will connect in the union depot with trains from Chicago, St. Louis, Cincinnati and other northern cities. The time from Chicago to Jacksonville, Fla., will be 33 hours, which breaks the record.

SHE WAS INNOCENT.

Woman Serves Years For a Crime of Which She Was Guiltless.

FRANKFORT, Ky., Dec. 1.—The governor has pardoned Catherine McQuinn, who is serving a life term on the charge of being an accomplice of "Bad" Tom Smith in the murder of Dr. Rader in Breathitt county several years ago. All the jurors and other officers of the trial court signed a statement to the effect that Mrs. McQuinn was shown to be innocent by proof secured after the trial. Smith first told she was his accomplice, but afterward told his attorney that she was innocent.

Catarth Cannot be Cured

With LOCAL APPLICATIONS, as they cannot reach the seat of disease. Catarth is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarth Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarth Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarth. Send for testimonials, free.

HELD UP IN A SWAMP.

Legislators of Georgia Pay Tribute to Knights of the Road.

ATLANTA, Dec. 1.—A committee from the house of representatives, composed of some of the most prominent politicians in the state, was yesterday held up in a freight car in the Okefenokee swamp and forced to give up a considerable sum of money. They had been inspecting a convict camp in the swamp.

On the return trip, when in the midst of the swamp two men stopped the train and demanded \$1.50 fare from each of the members, claiming to be officials of the road. Under protest the amount was paid, but the train was stopped again and the bogus conductors returned and demanded more money. He was given all that there was in the party and the journey was completed.

IS IT A MATTER OF TIME?

What Was Considered Modest and Proper a Hundred Years Ago.

Modesty, as has often been said, may almost be considered a matter of time and place. In the time of George III. of England, though the drapery was of the scantiest, it was not considered delicate or refined to uncover the forehead. Some young ladies who had been abroad were considered bold looking because they wore their hair Madama fashion. Ladies not in la premiere jeunesse were generally wore wigs. The princesses had their heads shaved and wore wigs ready dressed and decorated for the evening to save time for the toilet. Widows almost always shaved their heads. Lady Murray says her mother's beautiful hair was cut off for her deep mourning, and she never wore anything but a wig in after years.

At Windsor castle in those days luncheon was not, as it is now, a general meal. Each lady had a chicken, a plate of fruit and a bottle of king's cup (the peel of a lemon put to soak for some hours in cold water and then sweetened with sugar) brought to her room every day. Those were the days for servants' perquisites. On all the highest saints' days a tinsel cross of divers colors was placed on the tables of the ladies or sent to their residences, and a guinea was understood to be due in return. A bottle of wine every two days and unnecessary wax candles were the perquisites of the ladies' maids.

Candles were extinguished as soon as lit, to be carried off by servants. Pages were seen marching out before the royal family with a bottle of wine sticking out of each pocket, and the state page called regularly upon each person who attended the drawing rooms, with his book, to receive the accustomed gratuity. The ladies in waiting then wore the Windsor uniform, which is at present confined to the gentlemen attend ants. It was a blue cloth habit, not long, as worn for riding, but the length of a gown, with buttons having a star surrounded with the motto, "Honi soit qui mal y pense" and a scarlet collar.—New York Herald.

Life Marks Are Indecent.

We are not writing in the sand. The tide does not wash it out. We are not painting our pictures on the canvas, and with a brush, so that we can erase the error of yesterday or overlay it with another color today. We are writing our lives with a chisel on the marble, and every time we strike a blow we leave a mark that is indelible.—Lyman Abbott, D. D.

When you buy a few yards of cloth in Japan, the merchant always unrolls the whole piece and cuts off the inside end, in order that you may not have to take the part that is faded and shop worn.

Leather and Kerosene.

There is one use of kerosene which is seldom mentioned. It often happens that when a heavy shoe or boot has been wet it hardens and draws so that it hurts the foot. If the shoe is put on and the leather thoroughly wet with kerosene, the stiffness will disappear and the leather become pliable, adapting itself to the foot. If oiled while wet, the leather retains its softness a longer time. The kerosene does not injure the leather at all.

Between Selling Honest and Reliable Clothing and Making Windy Statements.

We have been doing the former for a number of years. Now we find our reputation needs no BOASTING. Our goods and prices speak for themselves. RELIABILITY and HONORABLE dealing has always been our motto. We do not believe in deluding the people by FLAMING BANNERS and "SFIDER AND THE FLY" advertisements, selling a 5 cents pair of hose for 3 cents and then charge \$10.00 for a suit that is only worth \$5.00. We don't do business that way. If you want a GOOD SUIT or OVER-COAT come and see us and we will save you money.

About Gravel-Road Work.

The county commissions have been out this week inspecting gravel road, stone and bridge work being done. The Kurtz and Maumee road, six and a half miles, has been completed and received. The Clearspring and Norman Station road, five miles has also been completed and received. The contractors, who are building the Norman Station and Leesville road, have reported that they would have their contract completed this week and ready for acceptance. Some reports from out that way, however, will prompt them to inspect their work very closely.
About 38 miles of gravel road will have been built in Owen and Salt Creek township this year if all contracts are completed.
There will be a petition filed before the commissioners at their next regular session for the construction of several miles of gravel road in Hamilton township. The sentiment out there seems to be generally favorable to the building of the road.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the *Bookman* says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

Mrs. Samuel Smallwood, of Goss Mill, and daughter, Mrs. William White, of near Freetown, went last evening to Columbus to visit Mrs. John Newcomb, daughter of the former, who is very ill with scrofula.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

Two Pointed Questions Answered.

What is the use of making making a

better article than your competitor if

you can not get a better price for it?

Ans.—As there is no difference in

the price the public will buy only the

better, so that while our profits may be

smaller on a single sale they will be

much greater in the aggregate.

How can you get the public to know

your make is the best?

If both articles are brought promi-

nently before the public both are cer-

tain to be tried and the public will very

quickly pass judgment on them and use

only the better one.

This explains the large sale on Cham-

berlain's Cough Remedy. The people

Not Easily Scared.

Two strange men knocked on R. F. White's door at midnight Monday. Mr. White asked what was wanted and they said they wanted in the house. After making several demands to open the door Mr. White said you get a move on you or leave instant. This they did. They left just in time to not feel the effect of cold lead, which Mr. White would have administered. Dick is not easily frightened.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, but sent free by mail. Mention the R. P. B. and send your address to Dr. Kilmer & Co., Binghamton, N. Y. T. An Appeal For the Poor.

As truant officer of district No. 2 composed of Crothersville, Redding, Hamilton, Jackson, Vernon, Washington and Grassfork townships, I find many families whose clothing is not sufficient to afford them reasonable protection against the weather that is sure to come this winter; and while the law provides for "necessary temporary aid" to all children needing the same, between the ages of 8 and 14 years, that they may "attend school regularly for 12 weeks," can we not do something for those other than those from 8 to 14 years who need both temporary and permanent aid that they may earn and enjoy the scanty living with which they seem to be content. Therefore, let us look into the attic, nooks and corners of our homes and see if there is not some clothing, underwear, boots, shoes, hats, caps, gloves, mittens, wraps, hoods or overcoats, all of any size, style or color, in good repair or not. Then if you will send me word I will call for them and place them in homes where they will be thankfully received.

John R. McLean's Great Newspaper.

Without a single exception, there is no doubt but that no greater or more popular newspaper in the United States than the *Chicago Enquirer*; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the *Daily Enquirer* have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The *Weekly Enquirer* at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The *Enquirer* has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the *Enquirer* by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

FEW ON THE GROUND

Senators and Representatives Slow
In Arriving at the Capital

GOSSIP AS TO LEGISLATION.

Members of Both Houses Not Talking
Much About Cuba—Currency Legisla-
tion, It Is Believed, Will Be Blocked
In the Senate—Day Offered and De-
clined the Attorney Generalship.

WASHINGTON, Dec. 1.—Members of
congress are unusually slow in putting
in their appearance here for the regular
session which convenes next Monday.
Up to this time there have been scarcely
more than half a dozen arrivals each
day. From now on, however, it is ex-
pected that the rush will begin and that
a very full attendance will be in their
places on opening day. Few of the
leaders of either house are here yet.
This is especially true of the house of
representatives. Neither Speaker Reed
nor Mr. Dingley, the floor leader of the
majority, will reach Washington until
Saturday or Sunday.

With the exception of pronounced
and radical pro and anti-cuban con-
gressmen the members of both houses,
as a rule, seem to be holding their
judgments in abeyance until they ascer-
tain from official sources exactly what
the situation is as to Cuba.

In the matter of the currency it seems
already established that the Democrats
and their free silver allies will oppose
stubbornly anything the majority is
likely to propose and the fact that the
opposition in the senate seems insur-
mountable inclines many of the Repub-
lican members of the house to the opion
that it would be wisdom not to at-
tempt any legislation whatever.

Mr. Hepburn of Iowa is one of these.
He thinks the utility of passing a measure
in the senate makes it inexpedient
for the house to attempt to put through
a measure and besides he doubts the
propriety of the Republicans of the
house attempting to make a Republican
policy on a subject upon which the Re-
publican platform does not speak to the
point. He says if the president should,
as reported, recommend any scheme for
the retirement of the greenbacks, it
would be beyond the Republican plat-
form and every Republican would be
free to support or oppose it as his judg-
ment indicated.

There is some talk of a Republican
caucus on this question, many of the
members believing that if a currency
measure is to be passed differences
could be most easily adjusted and con-
certed action secured in this way.

Mr. Walker of Massachusetts, chair-
man of the committee on banking and
currency, some time ago sent a letter to
every member of the committee urging
the importance of currency legislation
and asking each member to be prepared
as soon after the opening of the session
as possible to work to the end that some
measure may be submitted to the house
for action.

Mr. Hepburn, who is chairman of the
committee on interstate and foreign
commerce, says he has received many
letters during the recess, particularly
from mercantile bodies, urging action
on the antiscaling and pooling bills
and he expects both these questions to
receive early attention.

ATTORNEY GENERALSHIP.

Judge Day Says He Was Offered an I-
deally Position.

WASHINGTON, Dec. 1.—When asked
whether there was any truth in the of-
ten printed reports that he had been
tendered the attorney generalship, As-
sistant Secretary Day of the state de-
partment, said: "The president some-
time ago was kind enough to tender to
me the position of attorney general in
the event of a vacancy in that office,
which, after consideration, I have been
reluctantly compelled to decline for
reasons entirely personal." There is ev-
ery reason to believe that Judge Day
will continue work in his present po-
sition in the state department.

Loving Will Be Repremended.
WASHINGTON, Dec. 1.—Secretary Al-
ger states that he has finally decided to
approve the sentence of the court in Cap-
tain Lovering's case, which is that he
be repremended, although it may be
some days before the papers reach him,
having first to go to the judge advocate
general of the war department and
then to General Miles for their indorse-
ment before they will be in order for
his action.

Chicago Lakefront.

WASHINGTON, Dec. 1.—The Chicago
lakefront case was argued in the office
of the secretary of the interior today.
The case involves immensely valuable
lands of considerable extent in the heart
of the city of Chicago. The case was
decided once in favor of the script locat-
ers, but the decision was set aside.

WANTED TO SEE THE BABY.

Nicaraguan Sees a Missionary's Wife to
Death.
NEW YORK, Dec. 1.—Horatio C. Jones,
a missionary who arrived here yester-
day on the Atlas liner Alene from Port
Limon, says that his wife was scared to
death by the intrusion of a native, anx-
ious to see the new baby, into her bed-
room at San Carlos, Nicaragua. The
native meant no harm, but Mrs. Jones
was so frightened that she died from the
shock.

Whisky Assessed.
FRANKFORT, Ky., Dec. 1.—The state
board of valuation has assessed the
value of whisky in bond at \$3 per bar-
rel, the same rate as last year, and own-
ers will have to pay the county, city and
state taxes on their whisky as this valua-
tion.

ter which led to the imprisonment on the

Alfred Dreyfus on the charge of betray-

to that journal upbraiding it for laying
bare the "recesses and human weak-
nesses" of her husband's private life,
"regardless of the fact that it may break
a wife's and a mother's heart."
The countess concludes her letter with
the statement: "All this is my concern
alone; but, confident that my husband's
honor will emerge intact, I forgive and
forget all."

DRANK WOOD ALCOHOL

Seven Men Dead and Seventeen More
Not Expected to Live.

MARPLESVILLE, Ala., Dec. 1.—Seven
men are dead and 17 more are not ex-
pected to live from the result of drink-
ing a mixture of wood alcohol and cheap
whisky.

The liquor was bought in Selma, Ala.,
by Bill Anderson and another farmer
and brought here by them and retailed
to farmers and railroad laborers. A
great number of farmers and railroad
hands purchased some of the mixture
and immediately after drinking the
concoction were taken violently ill. No
physician was at hand and many of
them died before attention could be
given them. The alcohol was labeled
"for mixing paint only." The affair
has created a great sensation. Ander-
son and his partner are among the dead.

STARTLING STATEMENT.

One Out of Every Seven Deaths in New
York Caused by Consumption.

NEW YORK, Dec. 1.—Dr. Biggs, of the
board of health, made some startling
statements before the board of estimates
while that body was yesterday consider-
ing the city budget for 1898. The board
of estimates was asked to approve a
grant of \$50,000 for the care of tuber-
culosis in a special hospital. Dr. Biggs,
speaking for the board of health in sup-
port of the appropriation, declared that
one out of every seven persons who die
in this city are victims of tubercular
consumption. Dr. Biggs further stated
that among the working classes the per-
centage of deaths due to this disease
was one-quarter.

FIFTEEN LOCOMOTIVES.

Japanese Government Gives a New Jer-
sey Firm an Order.

NEW YORK, Dec. 1.—The government
of Japan has sent an order to locomotive
builders in Jersey City for 15 locomotives
for use on heavy trains. Work on
the locomotives will be begun at once.

Arrested by a Pension Examiner.

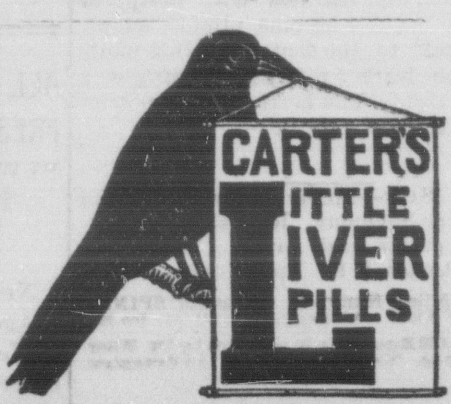

CLEVELAND, Dec. 1.—A woman giving
her name as Frances Davis and claim-
ing to be a former army nurse,
was arrested here by a special pension
examiner on suspicion of being Annie
May, who was indicted several months
ago for impersonating a pension agent.
One of the victims of Annie May was
asked to identify the prisoner, but failed
to do so. Mrs. Davis was therefore re-
leased.

Wants Damages.

SEATTLE, Wash., Dec. 1.—Donald
Morrison has begun suit against the
North American Transportation and
Trading company for the recovery of
\$18,000 damages suffered by reason of
the company's failure to transport him-
self and several associates to Dawson
City, by way of St. Michaels.

Peoria Internal Revenue Collections.

PEORIA, Ill., Dec. 1.—The internal
revenue collections for the month of
November in the Peoria district were
\$2,187,357. This is surpassed by but
one previous month in the history of
the office and that was in August, 1894
when the Wilson bill went into effect.

TERRIBLE PENALTIES

Fate of an Embezzler and That of
a Murderer.

EX-AUDITOR MOORE SENTENCED

Jury Brings In a Verdict of Murder in
the First Degree and Sends Martin
Thorn to the Chair of Death in New
York for the Killing of William Gul-
densuppe.

LINCOLN, Neb., Dec. 1.—Ex-State
Auditor Eugene Moore, found guilty of
the embezzlement of \$23,000, state funds,
was yesterday sentenced to eight years in
the penitentiary. The sentence was a
surprise and a crushing blow to the
prisoner, who had expected but nominal
punishment, and the scene in the court-
room was as affecting as it was drama-
tic. Moore, with his wife standing by
his side, pleaded with the court for
mercy, making a long and somewhat
rambling statement. At its conclusion
he sank in his chair and sobbing bitter-
ly, his wife trying vainly to comfort him.

Judge Cornish, visibly affected, spoke
slowly of the crime committed and the
entire absence of extenuating circum-
stances. He said he believed no less than
10 years in the penitentiary would sat-
isfy outraged justice.

As he passed Mrs. Moore threw her
arms about her husband's neck and
shouted: "Oh, please judge, have mercy
on him, have mercy!"

Judge Cornish then said: "On ac-
count of your devoted wife and your
loving children, I will reduce the sen-
tence by two years. Therefore, the sen-
tence of the court is that you shall be
confined in the penitentiary for the term
of eight years at hard labor, pay the
costs of prosecution and be fined in the
sum of \$40,816.10."

THORN MUST DIE.

Jury Brings In a Verdict of Murder in
the First Degree.

NEW YORK, Dec. 1.—Martin Thorn
was late yesterday convicted of murder
in the first degree in killing William
Guldensuppe, his predecessor in the af-
fections of Mrs. Augusta Nack at Wood-
side, L. I., on June 25. At the request
of Thorn's counsel the passage of the
death sentence was deferred until next
Friday morning. Thorn heard the jury-
men polled on their verdict, but his face
never changed color during the trying
ordeal. With lips firmly compressed
and jaws hard set, he faced the judge,
jury and courtroom full of spectators
with well feigned stoicism.

About three weeks ago Thorn's first
trial on the charge of murder was be-
gun, but owing to the illness of a juror
it had to be abandoned after three days.
A second trial opened a week ago last
Monday and, counting out three days
on which the court did not sit, the trial
consumed only six days. The jury was
just three hours arriving at a verdict.
Thorn's lawyers moved for a new trial
on the ground that the verdict was not
in accordance with the weight of evi-
dence, but the motion was overruled.

Just what will become of Mrs. Nack
has not been made known by the Queens
county authorities, but it is generally
thought that the state will accept a plea
from her which will not call for capital
punishment.

Thorn Said He Lied.

When Martin Thorn had been led
back to his cell after the conviction he
admitted that the verdict was just and
that he and not Mrs. Nack killed Gul-
densuppe. This acknowledgment of
guilt took place in the jail while Thorn's
cell was being prepared for him. He
said:

I am glad it is over and the verdict
given. I am convicted and I am contented.
It was I who killed Guldensuppe and I
put up my body. Every word that Mrs.
Nack said upon the stand was substantial-
ly correct. When I was on the stand I
lied when telling the story as I did, but I
lied to clear myself. It is no use carrying
it any further. I am guilty and am con-
victed. It is what I expected and what I
suppose people think I deserve, and per-
haps I do.

POSTMASTER MISSING.

Willard Gillham of Upper Alton Mys-
teriously Disappears.

UPPER ALTON, Ill., Dec. 1.—Willard
L. Gillham, son of the late Senator D.
B. Gillham, is missing, and much anx-
iety is felt by his family regarding his
whereabouts and safety. Mr. Gillham
is an attorney and is also postmaster at
this place. On Nov. 18 Mr. Gillham
started for Edwardsville, presumably to
transact some legal business. He left
home very early and took the train for
the place named. It is known that he
got to Mitchell, the station where Ed-
wardsville passengers transfer, but here
all trace of him is lost. His family is at
a loss to account for his absence.

MERRY'S MOTIVE.

Murdered His Wife to Get \$7.75 Which
She Had.

CHICAGO, Dec. 1.—The police have re-
ceived their first information regarding
the cause of the murder of Mrs. Merry
by her husband, Peddler Chris Merry.
Nicholas Schwarz, a peddler who has
been employed by Merry for three years,
has told them that on the day preceding
the murder he made \$7.75 for Merry by
peddling, and it was to get this from
his wife, after she had refused to re-
surrender it, that Merry strangled her to
death.

breds here Lon Bramble was sold to
Captain S. S. Brown of Pittsburgh for
\$9,000, and Flora Louise was sold to
Thomas Hays of this city for \$3,000.

ABOUT PAUPERS.

Report Made to Charity Organization
Society New York.

NEW YORK, Dec. 1.—A report that is
probably the only one of the kind made
in this country has been completed by
the committee on statistics of the char-
ity organization society.

The committee is composed of Rich-
mond Mayo Smith and Franklin H. Sid-
dings of Columbia University and
Frederick W. Halls.

It is a careful analysis of the records
of 500 families from the time they ap-
plied for aid in 1890 until Sept. 1, of this
year. Referring to repetitions of ap-
plications for relief the report says:
"There is a disclosure of chronic pauper-
ism. This pauperism exists to a large
degree because of the incapacity of
men and women to support them-
selves. Their condition is due, investi-
gation shows, to a lack of moral devel-
opment."

Of the persons who appealed for aid
the largest number were married men
and women. Widows with children
came next. Of the 500 applicants 170
were Irish and 132 were natives of the
United States. Many of the latter were
persons who had lived in this city less
than a year.

The list includes 122 men of good
character and 231 women of good char-
acter. The remainder were professional
beggars, criminals and chronic paupers.

The Happiest

moment in a woman's life is when
she feels for the first time the cling-
ing caress of her own baby's fin-
gers. How many
thousands of women
miss this greatest,
most manifold hap-
piness, and live out
happless, loveless
lives, because of ill-
health. Every woman
should realize the
supreme importance
of healthy vigor and
strength in the organ-
ism of the childbearing
woman. Unless a
woman is willing to be
at least envied of her
sex, a childless woman,
she cannot afford to
neglect this feature of
her health.

The best known and most successful
medicine for the cure of all diseases and weak-
nesses of the female reproductive organs is
Dr. Pierce's Favorite Prescription. Hun-
dreds of homes that for years remained
childless now ring with childish laughter as
a result of the beneficial effects of the "Fa-
vorite Prescription." It is the preparation
of an eminent and skillful specialist, Dr.
R. V. Pierce. For years it has been used
by Dr. Pierce in his daily practice in the
Invalids' Hotel and Surgical Institution, at
Buffalo, N. Y., the greatest institution of
the kind in the world. It has relieved thou-
sands of women from suffering and pain and
prepared thousands for the successful per-
formance of the duties of maternity.

W. R. Malcolm, of Knoch, Clay County, Ar-
kansas, writes: "Since I last wrote you we
have had a baby girl born to us. My wife took
Golden Medical Discovery and also your 'Fa-
vorite Prescription' all during the expectant
period and until confinement, and she had no
trouble to mention. A stouter, heartier child
was never born. Our child will be one year
old the 8th inst. and she has not been sick a
day. Has not had so much as the colic. It is a
fact, sir, and we have not had to up with her
as often as twice at night since her birth. My
wife had not even a fever for the two or three
days after the child was born, although the
attending physician told us that such would be
the case. Our neighbors remarked to me that
they thought my wife the stoutest little woman
they ever knew. We think our good health due
to the use of your family medicines."

Dr. Pierce's Pleasant Pellets cure consti-
pation. Constipation is the cause of many
diseases. Cure the cause and you cure the
disease. One "Pellet" is a gentle laxative,
and two a mild cathartic. Druggists
sell them.

ROCKVILLE TRAGEDY

Wealthy Farmer Shot and Instantly
Killed by a Boy.

WAS NOT GUILTY OF FORGERY.

Secretary of a Horsethief Detective As-
sociation in Jail For Embezzlement.
Indiana Boy, Mourned as Dead, Is
Found to Be a Wealthy Mine Owner.
Split In Two by a Saw.

ROCKVILLE, Ind., Dec. 1.—James T.
Sturgeon, a prominent farmer and stock
bayer, was shot and instantly killed
yesterday by Harry Porter, a boy 16
years old. The cause of the killing
was jealousy because of attentions paid
by the dead man to the boy's mother.
The family warned Sturgeon to keep
away. The boy met him in the sugar
orchard, some 200 yards from the house,
and shot with fatal effect. He then
came to Rockville and surrendered him-
self. Sturgeon leaves a wife and a large
family of children. Both families are
prominent.

ACCUSED OF EMBEZZLING.

Secretary of a Horsethief Detective As-
sociation in Jail.

NORTH VERNON, Ind., Dec. 1.—George
W. Shaffer, secretary of the local branch
of the Horsethief Detective association,
has been arrested and lodged in jail
charged with embezzling funds from the
Ohio Farmers' Insurance company of
which he was local agent. Shaffer
has been prominent in business affairs
and was once city marshal.

MOURNED AS DEAD.

It Is Now Ascertained That He Is a
Wealthy Mine Owner.

LIBERTY, Ind., Dec. 1.—"Jake" Hart,
who has been gone from home and
mourned as dead by his mother and
relatives for many years, has been lo-
cated at Cripple Creek, near which
place he owns some rich mining prop-
erty. He vowed he would not come
back until wealthy, and he will no doubt
keep his word.

SPLIT IN TWO.

Young Man Killed by the Bursting of a
Circular Saw.

MARION, Ind., Dec. 1.—William Pat-
terson, 19 years old, was instantly killed
in a spoke factory here yesterday. The
young man was standing in front of a
large saw, running at lightning speed,
which flew to pieces, literally splitting
Patterson in two from his head to his
waist.

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unsettle me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change. I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine!"

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

WEDNESDAY, DECEMBER 1, 1897.

GOVERNOR JONES, of Arkansas, issued a thanksgiving proclamation which is yet being applauded by the populist democrats.

Some of Mr. Bryan's enthusiastic admirers would like to accompany him on his proposed trip to Mexico, if he would only signify that he wanted company.

New York's first beet sugar factory has handled 15,000 tons of beets this year and made money for all concerned. This American industry will loom up within two or three years.

The farmers institute to be held here December 23 and 24, will doubtless bring out a large number of Jackson county farmers. The people will extend to them a hearty welcome and endeavor to make their stay with us pleasant.

POLITICAL BREVITIES.

Hamlin Smith, chairman of the republican county committee, has received official notice of the meeting of the state central committee as well as representative republicans from all parts of the state, at Indianapolis December 28. It will be an important meeting as the preliminary work of the approaching campaign will be discussed. The indications are that the meeting will be largely attended.

Sugar Beet Industry.

The raising of sugar beets is receiving much attention from the Indiana farmers. Every place where experiments have been made it has been highly satisfactory. More attention will be giving to this industry in another year. The subject will be discussed on the second day of the Jackson county farmers institute, commencing at 9 o'clock. This institute will be held in Seymour Dec. 23 and 24.

A CRUEL OPERATION.

THE PROCESS BY WHICH TORTOISE SHELL IS PROCURED.

Fires Set on the Living Turtle to Separate the Bony Layers of the House in Which He Lives—A Business That Struck an Observer as Heartless.

There are many articles of daily and hourly use constantly passing before our eyes and through our hands about the production of which we know comparatively little or nothing. An interesting example of this is tortoise shell, from which combs and hairpins are made, besides a multitude of trinkets for the dressing table, the desk and the pocket. Fierce crusades have been instituted in recent years against the slaughter of birds for the procurement of their plumage for hat trimmings, and yet I venture to say that the process of procuring tortoise shell is a cruelty to animal life which far exceeds that to which birds are subjected.

In the eighties I happened to be down in Bluefields, on that awful Mosquito coast, and at the invitation of one Manuel Latona, who was the owner and captain of a small schooner, went with him to the cay El Roncador for tortoise shell. This cay gets its name (which in English would be the Shorer) from the exceedingly angry surf, which can be heard for a long distance breaking over the reefs. This is the cay on which a couple of years back the historic old ship Kearsarge was wrecked and battered to pieces. El Roncador is nothing more or less than a typical coral island, such as is found throughout the southern seas, three-quarters of a mile long, perhaps, and not more than a quarter of a mile across its widest part. Surrounding the island is a reef, inside of which the water is smooth and rather shallow, and at the bottom of this shallow water there grows a peculiar kind of sea grass which is a dainty food for the turtle tribes. There is also found on the top of the water inside the reef a sort of small blubber fish, called in Spanish dedales, or thimble fish, which is perhaps the greatest delicacy of the entire turtle menu.

The turtle whose shell is valued in commerce is a small species known as the hawk bill. There are other varieties which come to El Roncador to spawn, but they are not molested. During the night the turtles crawl up on the shore to lay their eggs, each female depositing on an average about 70. To do this they dig holes in the sand about two feet deep and after laying the eggs cover them over so deftly that it is almost impossible for a novice to find them. These eggs are really delicious when roasted, but the turtle fishers are careful not to destroy them. They do not take for food, so as to promote as much as possible the increase of this valuable sea reptile. At night the fishers conceal themselves along the shore as well as possible, and when the turtles come up out of the water on the beach they rush forth and turn them over on their backs with iron hooks, leaving them secure in this position until morning.

The tortoise shell of commerce is not, as is generally believed, the horny covering or shell proper of the turtle; it is the scales which cover the shield. These scales are 13 in number, 8 of them being flat and the other 5 somewhat curved. Four of those that are flat are quite large, sometimes being as much as 12 inches long and 7 inches broad, nearly transparent and beautifully variegated in color with red, yellow, white and dark brown clouds, which give the effects so fully brought out when the shell is properly polished. A turtle of average size will furnish about eight pounds of these laminae, or scales, each piece being from an eighth to a quarter of an inch in thickness.

It is the method by which these scales are loosened which is the repulsive part of the business. The turtles are not killed, as that would lead to their extermination in a very few years. After capturing them the fishers wait for daylight to complete the work. The turtles are turned over again in their natural position and fastened firmly to the ground by means of pegs. Then a bunch of dried leaves or sea grass is spread evenly over the back of the turtle and set afire. The heat is not great enough to injure the shell, merely causing it to separate the joints. A large blade, very similar in shape to a chemist's spatula, is then inserted horizontally between the laminae, which are gently pried from the back. Great care must be taken not to injure the shell by too much heat, and yet it is not forced off until it is fully prepared for separation by a sufficient amount of warmth.

The operation, as one may readily imagine, is the extreme of cruelty, and many turtles do not survive it. Most of them do live, however, and thrive, and in time grow a new covering, just as a man will grow a new finger nail in place of one he might lose. The peculiarity of the second growth of shell, though, is that instead of reproducing the original number of 13 segments it is restored in one solid piece.

To see the operation of taking the shell from the living turtle once is about all a man of northern breeding wants of it, and if the helpless reptiles had the power of voicing their sufferings under it their cries would tell of as heartless a business as man has yet engaged in.—New York Post.

BOOTH-TUCKER'S SCHEME.

Commander of the Salvation Army Secures Aid For His Colony.

NEW YORK, Dec. 1.—There was a great audience in Carnegie hall to hear Commander Booth-Tucker of the Salvation Army unfold his plan to colonize the unemployed. It is his intention to have his plan in operation within six weeks. The colony is to be settled in western Colorado and territory enough to accommodate several thousand persons has been obtained. Commander Booth-Tucker said:

"To carry out the plan upon the large scale which shall be worthy of our nation and worthy of the emergency which faces us will require considerable amount of capital. This we do not propose to ask for in the shape of gifts, but as loans bearing interest at 5 per cent and repayable in a period of 10 years. We propose to raise immediately a fund of \$100,000 with which we shall be able to place 200 families of 1,000 souls on 2,000 acres of good irrigated land. We shall form a co-operative loan association on the German model, thus enabling the colonists to have some money in hand for the purchase of stock."

When the blanks had been circulated among the audience it was announced that Elizabeth Livingston had given \$1,000, a "secret subscriber" \$5,000, ex-Governor Flower \$500 and John E. Milholland \$1,000. Smaller subscriptions brought the amount up to \$30,000.

The Gateway to the South to Be Reopened Next Sunday.

LOUISVILLE, Dec. 1.—Next Sunday the Louisville gateway to the south, which has been practically closed against northern travel for the past 10 years, will be reopened. On that day the Louisville and Nashville railroad will put on a fast daily train to leave this city at 8:10 p. m. The train will be a solid vestibule and will connect in the union depot with trains from Chicago, St. Louis, Cincinnati and other northern cities. The time from Chicago to Jacksonville, Fla., will be 33 hours, which breaks the record.

SHE WAS INNOCENT.

Woman Serves Years For a Crime of Which She Was Guiltless.

FRANKFORT, Ky., Dec. 1.—The governor has pardoned Catherine McQuinn, who is serving a life term on the charge of being an accomplice of "Bad" Tom Smith in the murder of Dr. Rader in Breathitt county several years ago. All the jurors and other officers of the trial court signed a statement to the effect that Mrs. McQuinn was shown to be innocent by proof secured after the trial. Smith first told she was his accomplice, but afterward told his attorney that she was innocent.

Catarrah Cannot be Cured

With LOCAL APPLICATIONS, as they cannot reach the seat of disease. Catarrah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrah Cure is taken internally, and acts directly on the blood and mucous surfaces.

Hall's Catarrah Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrah. Send for testimonials, free.

ELYS BROS., 56 Warren st. N. Y. City. My son was afflicted with catarrah. I induced him to try Ely's Cream Balm and the disagreeable catarrah smell all left him. He appears as well as any one.—J. C. Olmstead, Arcola, Ill.

Legislators of Georgia Pay Tribute to Knights of the Road.

ATLANTA, Dec. 1.—A committee from the house of representatives, composed of some of the most prominent politicians in the state, was yesterday held up in a freight car in the Okefinokee swamp and forced to give up a considerable sum of money. They had been inspecting a convict camp in the swamp. On the return trip, when in the midst of the swamp two men stopped the train and demanded \$1.50 fare from each of the members, claiming to be officials of the road. Under protest the amount was paid, but the train was stopped again and the bogus conductors returned and demanded more money. He was given all that there was in the party and the journey was completed.

IS IT A MATTER OF TIME?

What Was Considered Modest and Proper a Hundred Years Ago.

Modesty, as has often been said, may almost be considered a matter of time and place. In the time of George III of England, though the drapery was of the scantiest, it was not considered delicate or refined to uncover the forehead. Some young ladies who had been abroad were considered bold looking because they wore their hair Madama fashion. Ladies not in la premiere jeunesse very generally wore wigs. The princesses had their heads shaved and wore wigs ready dressed and decorated for the evening to save time for the toilet. Widows almost always shaved their heads. Lady Murray says her mother's beautiful hair was cut off for her deep mourning, and she never wore anything but a wig in after years.

At Windsor castle in those days luncheon was not, as it is now, a general meal. Each lady had a chicken, a plate of fruit and a bottle of king's cup (the peel of a lemon put to soak for some hours in cold water and then sweetened with sugar) brought to her room every day. Those were the days for servants' perquisites. On all the highest saints' days a tinsel cross of divers colors was placed on the tables of the ladies or sent to their residences, and a guinea was understood to be due in return. A bottle of wine every two days and unnecessary wax candles were the perquisites of the ladies' maids.

Candles were extinguished as soon as lit, to be carried off by servants. Pages were seen marching out before the royal family with a bottle of wine sticking out of each pocket, and the state page called regularly upon each person who attended the drawing rooms, with his book, to receive the accustomed gratuity. The ladies in waiting then wore the Windsor uniform, which is at present confined to the gentlemen attendants. It was a blue cloth habit, not long, as worn for riding, but the length of a gown, with buttons having a star surrounded with the motto, "Honi soit qui mal y pense" and a scarlet collar.—New York Herald.

Life Marks are Indecent.

We are not writing in the sand. The tide does not wash it out. We are not painting our pictures on the canvas, and with a brush, so that we can erase the error of yesterday or overlay it with another color today. We are writing our lives with a chisel on the marble, and every time we strike a blow we leave a mark that is indelible.—Lyman Abbott, D. D.

When you buy a few yards of cloth in Japan, the merchant always unrolls the whole piece and cuts off the inside end, in order that you may not have to take the part that is faded and shop worn.

Leather and Kerosene.

There is one use of kerosene which is seldom mentioned. It often happens that when a heavy shoe or boot has been wet it hardens and draws so that it hurts the foot. If the shoe is put on and the leather thoroughly wet with kerosene, the stiffness will disappear and the leather become pliable, adapting itself to the foot. If oiled while wet, the leather retains its softness a longer time. The kerosene does not injure the leather at all.

About Gravel-Road Work.
 The county commissions have been out this week inspecting gravel road, stone and bridge work being done.

The Kurtz and Maumee road, six and a half miles, has been completed and received. The Clearspring and Norman Station road, five miles has also been completed and received. The contractors, who are building the Norman Station and Leesville road, have reported that they would have their contract completed this week and ready for acceptance. Some reports from out that way, however, will prompt them to inspect their work very closely.

About 38 miles of gravel road will have been built in Owen and Saltcreek township this year if all contracts are completed.

There will be a petition filed before the commissioners at their next regular session for the construction of several miles of gravel road in Hamilton township. The sentiment out there seems to be generally favorable to the building of the road.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc.

Miss Nellie Greer left last evening for Eastern Ohio to be gone several months. Mrs. Forest W. Sweeney, of Pinkneyville, Ill., came here last evening to visit relatives and friends.

T. W. Egan and family, of Washington, and sister, Margaret Keplinger, moved last night to Indianapolis, to reside in future.

Mrs. Jane Lawhead, of Columbus, after a nice visit with her sons, Aaron, and Ellsworth Loyd and families, returned home last evening.

Mrs. Samuel Smallwood, of Goss Mill, and daughter, Mrs. William White, of near Freetown, went last evening to Columbus to visit Mrs. John Newcomb, daughter of the former, who is very ill with scrofula.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

ELI EDWARDS, of Fairland, Ind., recommends Wright's Celery Capsules.

FAIRLAND, Ind., Oct. 30, 1896. Wright Medical Co., Columbus, Ohio.

Dear Sirs—I was afflicted with constipation, indigestion and nervous prostration. I spent hundreds of dollars for patent medicines and with doctors and got no relief. Wright's Celery Capsules cured me and made me as sound as a bullet.

Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon and is pleasant and safe to take. Sold by C. W. Milhous.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

Not Easily Scared.

Two strange men knocked on R. F. White's door at midnight Monday. Mr. White asked what was wanted and they said they wanted in the house. After making several demands to open the door Mr. White said you get a move on you and leave instant. This they did. They left just in time to not feel the effect of a lead, which Mr. White would have administered. Dick is not easily frightened.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and a pamphlet, but sent free by mail. Mention the REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee effectiveness of this offer.

A merchant in a neighboring city dipped a lump of coal in gold sizing and having labeled it "Nugget from Klondike—value \$9,000," placed it in his show window and was greatly pleased with his ingenuity. The next morning he found the window smashed and the lump of gilded coal gone. It cost him \$90 to replace the plate glass. He thinks now that a newspaper ad. would have done him more good and not have cost him so much.

Pains in the chest when a person has a cold indicate a tendency toward pneumonia. A piece of flannel dampened with Chamberlain's Pain Balm and on to the chest over the seat of pain will promptly relieve the pain and prevent the threatened attack of pneumonia. This same treatment will cure a lame back in a few hours. Sold by C. W. Milhous.

An Appeal For the Poor.

As truant officer of district No. 2 composed of Crothersville, Redding, Hamilton, Jackson, Vernon, Washington and Grassyfork townships, I find many families whose clothing is not sufficient to afford them reasonable protection against the weather that is sure to come this winter; and while the law provides for "necessary temporary aid" to all children needing the same, between the ages of 8 and 14 years, that they may attend school regularly for 12 weeks, can we not do something for those other than those from 8 to 14 years who need both temporary and permanent aid that they may earn and enjoy the scanty living with which they seem to be content. Therefore, let us look into the attic, nooks and corners of our homes and see if there is not some clothing, underwear, boots, shoes, hats, caps, gloves, mittens, wraps, hoods or overcoats, all of any size, style or color, in good repair or not. Then if you will send me word I will call for them and place them in homes where they will be thankfully received.

AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

MRS. E. R. WELLS.

John R. McLean's Great Newspaper.

Without a single exception, there is no doubt no greater or more popular newspaper in the United States than the Chicago Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.
